Welcome to the eighth edition of the leading Nordic meeting place

Here you are guaranteed to find what you need for your product idea and production in terms of technology trends, new machines and the right material. You can also get help to simplify and make your work more efficient within industrial design and construction – with the main focus on polymeric and innovative materials in new combinations with unique properties. A visit to the show is clearly the easiest way to find inspiration, knowledge and new suppliers, resulting in more efficient, nicer looking and better production. Welcome!

- Meet approx. 200 leading suppliers from around the world
- See new products
- Get an overall view of the trade
- Listen to inspiring seminars
- Find the smartest solutions of the future for your production/product
- Discover a new focus area – Material Innovation Plaza

➔ New focus area:

Material
Innovation **Plaza** 

Advanced Materials | Innovative solutions
Cutting edge manufacturing

➔ Focus area:

IndustriDESIGN
& KONSTRUKTION

Take a break and listen to cutting-edge experts and the most inspiring speakers in materials science, design, construction and polymer production!

Nanotechnology offers materials that will drive the next technological revolution

Nanotechnology offers materials that will drive the next technological revolution. Maria Strømme is Professor of Nanotechnology and Vice Chairman of the Royal Swedish Academy of Engineering Sciences. In her summer programme on Swedish radio in August 2015, Strømme talked about the life-changing possibilities offered by nanotechnology. At the show, Strømme will show examples of where in the development of nanotechnology we are today and the enormous opportunities offered by nanotechnology to change our everyday lives and the conditions of our industry.

Production planning – faster response to customer orders, improved delivery precision and a better purchasing process

Morgan Bodin, Business Area Manager Supply Chain, PlantVision

For inspiration

Gurra Krantz, one of Sweden's most experienced and merited yachtsmen

Krantz is a skipper who has competed in international yacht races for 35 years and challenged himself, his crew, and the design and material of the yachts in four round-the-world yacht races and two America's Cups.

CSILab – an arena for future industrial applications in the spirit of Industry 4.0

Åsa Fast Berglund, Doctor of Technology, Chalmers Smart Industry

Bioplastics – who is interested and when is it a good idea?

Nils Hannerz, Head of Industrial Bioeconomy, IKEM (Innovation and Chemical Industries in Sweden)

See the full free programme on the homepage: www.easyfairs.com/plastteknik

Premium exhibitors

Network, try new types of beer or just mingle – which activity suits you best?

Meet others in the trade in a relaxed form

Don't miss out on ending the first day of the show together with your colleagues in the trade, when IKEM invites you to drinks and snacks in the foyer at the show. See you there!

April 13, 4:30pm

IKEM
Innovations- och kemiindustrierna i Sverige

zenit design
vision into value

How can a designer save time and money when developing products and services?

Approaching the development with a deeper understanding of the needs of different customers and open 'design thinking' early in a project increases the likelihood of the right things being developed, whether they are physical products or services.

Discussion by:

Kajsa Bobjer, Industrial designer

Mathias Walter, Industrial designer

Jonas Svennberg, Industrial designer

How should future competence supply in the plastics industry be ensured?

Discussion by:

Leif Nilsson, Chairman, SPIF

Anders Sjögren, MD, Polymercentrum

Greta Hjortzberg, Head of Competence Supply, IKEM

Moderator: Anders Ekdahl, MD, SINF

A fantastic and exciting gala evening!

A successful show demands an exceptional party! At the end of the first day of the show, we will open the functions room at Scandic Triangeln, where we will start with drinks and mingling. We will then enjoy a delicious three-course dinner with evening entertainment and the prestigious prize-giving of the Swedish Plastics Industry Awards.

Who will be the winners of this year's prize categories? The tension is palpable!

SPIF wishes everyone a warm welcome!

*N.B. The number of places is limited! Read more and register at:
www.easyfairs.com/plastteknik*

Date: Wednesday April 13

Place: Scandic Tringeln

Tid: kl. 19:00

Time & place

Wednesday, 13 April 2016 9 am-5 pm
Thursday, 14 April 2016 9 am-4 pm

Place

MalmöMässan, Malmö
For directions, visit:
www.easyfairs.com/plastteknik

Make your visit to the show more efficient by printing your free admission card at:
www.easyfairs.com/plastteknik

*This is purely a trade show and is only open to representatives from industry and the public sector.
Age limit 18 years. ID together with a business card to prove your job title will be required at the entrance. We are unable to admit students.*
